$1000 REWARD

Is offered as a guarantee that neither

Dr. Pierce's Favorite Prescription

NOR

Dr. Pierce's Golden Medical Discovery

contains alcohol, opium, or any harmful drug. Any one publishing false statements concerning their ingredients will be prosecuted. Doctor Pierce's Family Remedies are compounds of medicinal principles, scientifically extracted from native roots that cure the diseases for which they are recommended. They are medicines which have enjoyed the public confidence for over a third of a century. They are medicines not beverages, made to satisfy a craving for "booze."

"Golden Medical Discovery" regulates and invigorates stomach, liver and bowels, and cures dyspepsia, purifies the blood and tones up the system generally.

"Favorite Prescription" cures female weakness, irregularities, exhausting drains, painful periods and kindred ailments peculiar to women. Accept no substitute for these medicines, each of which has a record of marvelous cures. Substitution means selfishness on the part of the dealer who is looking for the greater profit on an inferior article.

"Our daughter who was attending college became very nervous and we were advised to try Dr. Pierce's Favorite Prescription," writes Mrs. M. C. Fox, of 57 E. Leonard St., Grand Rapids, Mich. "We did so and then you advised us to get the 'Golden Medical Discovery' also. She took four bottles of the 'Prescription' and three of the 'Golden Medical Discovery, and you never saw such a change in a person. She said she did not feel like the same person. She was about seventeen years old at the time. I will gladly recommend Dr. Pierce's medicines to every one. I advise parents who have young daughters who suffer from nervous troubles to try Dr. Pierce's Favorite Prescription at once. I am sure it will help them."

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away $30,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol
Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

THE RECENT BATTLE.

Further authentic details of the naval battle in the Strait of Korea and Japan show that torpepo boats wrought the greatest destruction among the Russian ships. When the flag of action was hoisted on the Japanese flagship the signal read:

"The destiny of our empire depends upon this action. You are all expected to do your utmost."

The Japanese fleet gradually inclosed the Russian on all sides and the torpedo boats sunk one ship after another. The Russians were unable to repel the attack at night.

While the Japanese suffered a loss of less than 800 men in killed and wounded, it is estimated that the Russian losses were from 7,000 to 9,000, not including nearly 4,000 taken prisoners.

The first shell that struck the conning tower of Admiral Voelkersham's flagship, the battleship Oslabya, killed the Admiral. The ship was sunk.

Nearly 3,800 Russian prisoners have landed at Nagasaki.

An officer of the Borodino, who is at Sasebo, in describing his experiences in the recent naval conflict says.

"I was in the forward barbette in charge of one of the 12-inch guns when the signal to begin firing was given. The ship nearest to us was the Shikisima, whose projectiles began to reach us a few moments after the fight began. I fired the first gun at 2:30 and was overjoyed to see that it reached its mark, for the Japanese vessel was struck in her upper works and did not return the fire for at least ten minutes. At this early stage of the battle Admiral Rojestvensky came aboard the Borodino and directed the fighting from the bridge.

"Immediately afterward a projectile struck my barbette and rendered every one inside insensible. The barbette was filled with smoke. I groped my way out. The decks were raining with projectiles. Dozens of men were lying dead or wounded at every turn. When the barbette was clear I re-entered with the crew, but only had time to fire two more rounds when two projectiles struck simultaneously and disabled both 12-inch guns, wrecking the barbette and killing eighteen officers and men."

"I crawled on deck to one of the 6-inch guns, which was surrounded with dead and wounded. Here I remained for an hour, during which time the Borodino became a shambles. The wardroom and steerage were crowded with wounded. Nearly every ammunition hoist had been wrecked and shells had to be passed by hand. A shell struck the port screw and another disabled the steering gear. The signal mast was carried away.

"Presently, when everyting seemed worse than confusion, a quartermaster told me that the admiral was wounded and was being taken to another ship in a destroyer. I saw the destroyer leave amid a hail of small arm ammunition, but fortunately none struck her.

"At 4 o'clock the Borodino was down by the head She had been hulled several times. There was no hope of saving her. The Japanese ships, having succeeded in breaking out battle formation, came closer and brought every available gun to bear. Our fighting tops were particular targets. Not one of the men stationed there was apparently alive. I volunteered to go up with a few men, and the sight there even in the midst of the desperate battle was so terrible that it has haunted me.

me and robbed me of sleep ever since. The men in the tops had been hacked to pieces by the fire of the Japanese. The machine guns were hopelessly ruined.

"Fire broke out in several places, and this added to the horrors of our already sorely tried vessel. The fire call sounded, but so many were dead or wounded and the falling projectiles made it so difficult to operate that there was no chance to subdue the flames. It was therefore resolved to withdraw from the line of fighting.

"Our steering apparatus had been repaired, but eight Japanese ships closed round us and bombarded us from every side. Our forward guns were useless, but we did good work with the after 12-inch guns and those 6-inch guns which were not out of action, though they were worked with only half their complement of men. The Borodino sank lower and lower and was a fine target for the overwhelming superiority of the enemy, but we fought on desperately although hopelessly.

"Toward evening, after a long afternoon of terrible exhaustion, during which there was neither time to eat nor drink, and after we had lost fully 400 killed or wounded, we noticed two Japanese destroyers bearing down. One of them we sunk with a shell from a 6-inch gun, but the other came safely and launched a torpedo and swept past our bow unharmed. The torpedo missed us. The chief engineer now came to inform us that the fire had gained such headway that it was impossible to keep the men below. A moment later the engine room crew were driven out by the flames.

"We expected every moment to be blown up and were preparing for the inevitable when a whole flotilla of torpedo boats came down on us. In five minutes the end had come. An explosion caused the ship to turn turtle. I was drawn down deep and was struck by a piece of wreckage, but a boat from a destroyer picked me up and forty others from the Borodino and took us to the Kasuga, from which we we transferred to the shore."

OPERATION AVOIDED

EXPERIENCE OF MISS MERKLEY

She Was Told That an Operation Was Inevitable. How She Escaped It

When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for ovarian or womb operations.

Miss Margret Merkley

There are cases where an operation is the only resource, but when one considers the great number of cases of ovarian and womb trouble cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margret Merkley of 275 Third Street, Milwaukee Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had ovarian trouble and ulceration and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

Ovarian and womb troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing down pains, leucorrhœa, don't neglect yourself: try Lydia E. Pinkham's Vegetable Compound.

Short Sermons For No Hats.

Short sermons for no hats is the unique agreement between Rev. J. O. Thomas, pastor of Laurel Street Methodist Church, Richmond, and the ladies of his congregation. Mr. Thomas made the statement at the end of a sermon last Sunday that he would be obliged to them if they would leave their hats at home. "You will be so much more comfortable," said the pastor, "and if you will do it my sermons will be short during the hot weather." The ladies received his request with enthusiasm and agreed to it without a dissenting voice.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle, with chronic stomach and liver trouble, but at last I won and by the use of Electric Bitters. In unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold, under guarantee to do the same for you, by E. S. Leadbeater & Sons, druggist, at 50c. a bottle. Try them today.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, JUNE 2, 1905.

THE TRIUMPH of Togo seems to have settled the question whether the yellow men of father Asia shall in the future march of progress be mere tributaries to the white masters of the world or their acknowledged equals, within their sphere of influence at least. This is a significance of the Japanese victory to which, much as it may offend racial pride, one cannot shut his eyes. It has been in anticipation of the probable triumph of Japan that the cry of the "Yellow Peril" has been raised in Europe and in America. It was in hope of preventing the rise of Japan that the Russian-Franco-German intervention took place after the treaty of Shimonoseki. In occupying Manchuria, and otherwise preparing for the partition of China, Russia doubtless regarded herself as the banner-bearer of white supremacy—and there was something of truth in the pretense. Speaking of recent events in the far East, the Philadelphia Record says: "Japan has gained for herself and her racial kin the right to a part of the world wherein she can develop and grow independent of European tutelage. There is no imperilment of any just claim of the world's predominant race in the assertion by a teachable and intellectually well equipped race of other color that the powers must respect its privilege to remain master of the regions which it has occupied for a time antedating authentic history by thousands of years. "Asia for Asiatics" is a doctrine as sound in principle as "Europe for Europeans," or "America for Americans." This doctrine it would be well for the United States to recognize.

ADMIRAL VOELKERSAM was killed the first day of the recent naval battle, in the coning tower of his ship, the Oslyabia; Admiral Enquist is missing and supposed to be lost; Admiral Rojestvensky is a prisoner and wounded in a Japanese hospital, and Admiral Nebogatoff is a prisoner after having surrendered four battleships to the Japanese. The Russian navy is practically annihilated and about eight thousand men have been lost. Coupled with this terrible reverse is the uncertain outcome of operations in Manchuria where Oyama is preparing to deliver more Titanic blows on the Czar's army. In this unhappy plight it is feared that the revolutionaries and socialists are planning to take advantage of the government's discomfiture by inciting demonstrations and a renewal of the strikes. The liberals also consider that the government is at last in a corner and the time has come to strike. Notwithstanding the darkness of the cloud through which the nation is passing there are no signs of peace, but a dogged determination upon the part of those nearest the Czar to let the war go on.

THE Paris police authorities assert that they have positive proof that a Spanish anarchist is responsible for the recent attempt to kill King Alfonso by a bomb. The bomb was of Spanish make and similar to those used at Barcelona. Another bomb was found Wednesday night in the Rue de Rivoli near the spot where the explosion occurred. This bomb also contained dangerous explosives. The plot is said to have been planned in a hotel near the scene of the explosion. A semi-official version of the explosion increases the gravity of the affair and shows the narrowness of the escape of both King Alfonso and President Loubet. Alfonso pretends that the attempt upon his life has in no way interferred with the pleasures he is experiencing in Parisian society.

AN INTERESTING fact and one bearing on the fight for the United States senatorship, which has not become generally known, is that Captain Daniel M. Lee, of Stafford county, a brother of General Fitzhugh Lee, is a warm supporter of Senator Martin in his contest for re-election. This fact was recently published and has never been denied. In fact, those familiar with the political situation verify the statement. The attitude of Captain Lee is of especial interest in view of the fact that Senator Martin defeated General Fitzhugh Lee for the Senate when first chosen, and Governor Montague has been expatiating on that election ever since he entered the senatorial race.

MANY STRANGE occurrences are chronicled in this age and a strange freak of nature is causing much fear and talk in Milford, Bartholomew county, Indiana, where a bolt of lightning descended from a clear sky with a deafening crash of thunder. It is said that immediately after the flash everybody in the town was taken with a sick headache, and for several hours not one of the people was exempt from the feeling of sickness which was accompanied by sharp pains in the head. Some of those affected did not fully recover until twenty-four hours later.

SEISMIC TROUBLES are again causing alarm and death. A dispatch from Scutari, Albania, says that over 200 persons were killed or injured and 500 houses collapsed in an earthquake that was felt throughout Albania yesterday morning. A volcano in Mexico which had for a long time caused no apprehension is becoming active and the inhabitants are fleeing for their lives. The recent earthquake in India destroyed thousands of lives and caused untold losses of property.

The diplomatic note which it is stated Morocco is sending to the powers and which, while rejecting the suggestions of France for administrative reforms in Morocco asks for expressions on that subject from other countries interested, has not yet reached the State Department. Whether the United States will take part in the international discussion which is bound to arise in connection with this question is dependent to some extent upon the character of the Moroccan note. The United States, it is declared, has only its commercial interests, present and future, to safeguard in that country, These are important now and promise to become much larger, but the United States has no such interests politically in Morocco as engage the attention of the European powers.

Major General Henry C. Corbin, commanding the Philippines Division, has reported to the War Department that the transport Sherman arrived at Manila from San Francisco last night with smallpox aboard. The officials of the War Department are inclined to believe that General Corbin has been mistaken and that there is no smallpox aboard the Sherman, but possibly some chickenpox.

Senator Hansbrough, of North Dakota, called on the President this morning to introduce some friends. The Senator and Secretary of the Treasury Shaw have been engaged in an epistolary controversy touching upon the drawback question and this was one of the things he discussed with the President. Senator Hansbrough is of the opinion that the $30,000,000 deficit could be materially reduced by abolishing the drawback.

Count Cassini, the Russian Ambassador, this morning made an appointment to call on the President this afternoon. It is presumed that the possibility of peace in the near future between Russia and Japan will be discussed. In recent conferences with the President, Japanese Minister Takahira has made known to the President in a general way the attitude of his government on the subject and the satisfaction the Mikado would feel in having the President act as an intermediary in the preliminary negotiations for peace should Russia manifest a disposition to come to terms. The President will doubtless convey to the Russian Ambassador his information as to Japan's position.

Instructions were issued by the General Land Office today that will prevent a single person from entering on more than 320 acres of any kind of non-mineral land under the act of Congress of August 30, 1890. Hitherto this act has been held not to apply to lands entered on under the timber and stone law, soldiers' additional law and certain classes of script and land warrants. The effect of the new ruling will be to prevent persons from acquiring title to large tracts in violation of the spirit of the law. Mineral lands will not be affected.

At the Cabinet meeting today the situation in the far East and the prospects as regarding peace were discussed in only a general way, most of the time being occupied with departmental matters. It was decided, among other things, that the body of John Paul Jones shall be brought direct to Annapolis from France. It is the desire of the President that the body shall leave France, or arrive in this county, on the Fourth of July, but just which plan will be followed has not yet been determined.

The long deferred visit of Count Cassini, the Russian Ambassador, to President Roosevelt, was paid by the Count this afternoon. There is no denial of the statement that the Russian situation was discussed, and it is generally believed that the President gave the Ambassador much of the information in his possession.

China Wedding.

[Correspondence of the Alexandria Gazette.]

Mitchells, Va., June 1.—To perpetuate the friendship and revive the pleasant memories of long ago, Mr. Walter J. Yager and wife (nee Smoot) decided to celebrate their China weddinganniversary at their home "Mountain View," one and a-half miles north Mitchells, and issued invitations to friends and relatives requesting their company at a social function on Saturday, the 27th ult., from 6 to 8 p. m. The pleasure and happiness engendered by this function will be long remembered by everyone present.

Destroyed His Ship.

Official reports bearing on the naval battle are beginning to be received by the Emperor and Grand Duke Alexis, the high admiral, the most important of these reports revealing the fate of the cruiser Izumrud, being a telegram for her captain, Baron Ferzen, dated June 1, saying that he had blown up the cruiser at the entrance of Vladimir bay, and briefly describing the battle.

"I was cut off from the squadron, and finding it impossible to rejoin it, resolved to make for Vladivostok. I put on full speed, and the enemy's cruisers came on in pursuit. Owing to the insufficiency of my coal supply and the certainly of meeting the enemy's cruisers, I subsequently altered my course for Vladimir bay, where I arrived on the night of May 29.

"At 1:30 o'clock next morning, in pitch darkness, the Izumrud ran full on a reef at the entrance to the bay. Having only 10 tons of coal, and seeing that it would be impossible to again float my vessel, I ordered the crew ashore, and blew up the Izumrud, to prevent her falling into the hands of the enemy. Ten of my sailors were wounded in the battle, but the officers and the rest of the crew are all safe."

Virginia Corporation Commission.

The uproar in the Corporation Commission, resulting in the dismissal from office of three of its clerks and the filing of a damage suit for $10,000 by one of them, A. S. Lanier, against John A. Upshur, the secretary, has brought to light the fact that some men in Richmond are attempting to capture from New Jersey her lucrative charter business.

The Virginia Corporation Company, the formation and conduct of which seems to be the cause of the trouble, has sent circulars broadcast, stating that the corporation laws of Virginia are more liberal than those of any other State, New Jersey not excepted, and that it is thought Virginia will become one of the principal corporation-creating States.

"In the opinion of nearly all of Mr. Moody's colleagues, that gentleman is expected to resign from the Department of Justice in a few months, and it is generally understood that Mr. Bonaparte will be Attorney General of the United States before Congress meets and before he is compelled to be brought in daily, not to say hourly, contact with the "politicians" in both houses of Congress, whom he so heartily and so frankly despises."

Lightning Made Dog Spin.

Today's Telegraphic News

Admiral Togo's Victory.

Tokio, June 2.—The Mikase, the flagship of Admiral Togo, suffered the most in the fighting, showing that the Russians did their utmost to put the large warship out of action. The number of killed and wounded is given at sixty-three. The Russians lost, according to the latest figures received, 7,000 men who were killed and 3,000 prisoners.

A dispatch received from Sasebo, where Admiral Rojestvensky was taken after his capture, says that the Russian commander has offered an explanation of his action in taking the course through the Korean straits, which it had not been expected he would attempt. Rojestvensky said he hoped to clear the straits of Tsushima under cover of the heavy fog which prevailed. A southwest gale suddenly cleared the fog away, and revealed the movemeut of his fleet, and laid the vessels open to Togo' attack.

The sinking of the Zemchug, which has been unofficially reported since the battle, has been confirmed.

One story which is told by survivors of the battle is that in the extremity of the fight one hundred and forty of the helplessly wounded Russian sailors on the Orel were thrown overboard because their cries of pain and visible agony seriously affected the men who were working the guns.

It is the intention to bring the captured battleship Orel to Yokosaka where the Mikado will visit and inspect her. The Orel fought desperately the whole day before surrendering.

London, June 2.—There is no confirmation of the statement wired by the St. Petersburg correspondent of the Times to the effect that the Russian sailors under Admiral Nebogatoff mutinied and threw the admiral, together with several of his officers overboard during the fight, and then struck their flags.

Dispatches from Tokio, which so far have been very accurate, give no account of such an event, and give an altogether different version of the surrender of Nebogatoff.

Another dispatch from Tokio speaks of the throwing overboard of 140 wounded men from the Orel, during the fight, because they interfered with the men who were working the guns. It is possible that a report in regard to Nebogatoff being cast cast into the ocean by mutinous sailors arose in confusion over this circumstance.

St. Petersburg, June 2.—It is announced officially that Admiral Volkersham, who had been ailing for some time, died on board his vessel, the Oslibia, two days before the recent naval battle was fought. Dispatches from Tokio this morning make the statement on the authority of captured Russian seaman that Admiral Volkersham was killed in the conning tower of the Oslibia by the first straight shot fired in the battle.

Washington, D. C., June 2.—The Japanese legation today received the following dispatch from Tokio: "Ninth report from Togo received afternoon 1st. No Russian ship between Torijima and Shanghai. Rear Admiral Shimamura reports his flagship Iwate cannonaded Zemtchug vigorously at 3,000 meires on the afternoon of the 27th and undoubtedly sank her."

The Attempt to Assassinate Alfonso.

Paris, June 2.—The police who are keeping up their investigation of the plot to kill King Alfonso, are now convinced that the Spanish anarchist, Farras, was the perpetrator of the outrage. More and more evidence tending to show his guilt has been accumulated. The search for Farras is being pursued with all the vigor the officers can put into the hunt. As the result of the bomb throwing, the authorities of Paris have determined to take energetic measures to suppress the propaganda of the anarchists who hitherto have not been interfered with. The danger of allowing them to keep up their agitation is now plainly seen, however. During the week preceeding the arrival of Alfonso in Paris, the labor exchange had become almost a revolutionary centre. The assassination of the King was openly advocated, and the police did not dare to interfere to put an end to such talk, as they had been given orders to avoid all violence. There is a singular coincidence in the attempt made upon the life of Alfonso, as the bomb throwing was on the very spot where an infernal machine was thrown at Bonaparte, while he was serving as First Consul on December 24, 1800. Bonaparte was on his way to the opera when the outrage occurred, while Alfonso was returning from the play. Bonaparte likewise escaped uninjured, but eight persons were killed by that explosion.

Popular Resentment.

St. Petersburg, June 2.—Popular resentment against the bungling of the Russian fleet in the battle with the Japanese on Saturday and Sunday last is steadily growing. The people are particularly incensed by the surrender of Admiral Nebogatoff. Persons who are in a position to know everything that happened in the battle of Korea strait do not believe the report that the sailors under Nebogatoff mutinied during the fight. They allege that Admiral Nebagatoff was promoted to the rank of Admiral solely through the influence of friends and that he was quite incapable to command the squadron.

Japanese Losses.

Tokio, June 2.—The announcement is made that the Japanese losses in the great naval battle in Korean straits were 113 officers and men killed and 424 wounded. These revised figures give a detail which is considerably less than the estimate of 800 which was made by Admiral Togo.

Death from Criminal Operation.

Cumberland, Md., June 2.—Jennie Maxwell, aged 18, died this morning as the result, it is alleged, of a criminal operation. William Herman, a prescription clerk, and J. T. Thompkins, a negro physician, have been charged with the crime. They were committed to jail pending further investigation.

New York Stock Market.

New York, June 2.—The dominant influence appears to be the discussion of the Equitable Life report which disturbed speculative sentiment in many quarters. Although the State tax in stock transactions went into effect today, it did not enter into market calculations to any extent and was only spoken of in connection with the wording of protests to be sent to the State controller.

Mayor Weaver at Work.

Philadelphia, June 2.—Acting under authority of Mayor Weaver, the new Directors of Public Safety and Public Works, Colonel Sheldon Potter and A. Lincoln Acker, who were yesterday confirmed in office by Select Council, today began their promised house cleaning task. The first head to fall was that of William H. Baker, Assistadt Director of Public Works, and this was soon afterwarde followed by that of Alexander Colville, Assistant Director of Public Safety. The resignations of both were asked this morning, and were tenderedd shortly before noon. It is understood that the resignations of John Taylor, Superintendent of Police and Thomas Blynn, Private Secretary, will also be asked by Director Potter, while Director Acker will swing the axe vigorously among the minor officials in the Department of Public Safety. It is understood that the office of Assistant Director of Public Works has been tendered to ex-Postmaster Thomas L. Hicks and that he will accept

Ex-Magistrate Thomas Smith has been named as the temporary Assistant Director of Public Safety. It is rumored that the offices which he and Hicks have been named to fill, will shortly be abolished in accordance with Mayor Weaver's economic programme.

To Sell Queen's Jewels.

New York, June 2.—Jewels originally the property of the late Queen Isabella, of Spain, valued at $1,000,000, it is learned, were left by Mrs. Leland Stanford. The gems were given in her will to the Leland Stanford, jr., University in California. In a few weeks they will be sold, and the proceeds will go toward a library building for the University, the corner-stone of which was laid about ten days ago.

The jewels are divided into five sets, and include some of the most famous diamonds in the world. Romance surrounds them, as they were taken from Spain by Queen Isabella in her flight in the early thirties.

Mrs. Stanford paid $1,000,000 for the jewels at a private sale. It is expected the news that these jewels are to be sold will create a furor in society throughout the country, and that members of the exclusive sets in different cities will vie with each other to become the proud possessor of such a valuable collection. While the intrinsic value of the gems is great, their associations and history make the stones almost priceless.

Earthquake in Albania.

Scutari, Albania, June 2.—Reports received here in regard to the earthquake which ocurred yesterday in Montenegro, say that a great deal of damage was done. Over 500 houses were destroyed, and in the neighborhood of 200 persons were killed or wounded. There were two distinct shocks and they were felt all over Montenegro. This town was almost wiped out of existence by the earthquake. Hundreds of houses were wrecked and a panic prevails among the people. Last night hundreds of people slept outside the town in the open air, many of them having lost their homes, while other were afraid to return to the town. The shocks were felt generally throughout the southwestern part of the Balkans. Reports from the towns of Zara and Cattearo show that a great deal of damage was done there.

New Volcano Rising Near Mexican Mines.

Mexico City, Mex., June 2.—According to official advices received by the Meteorological Department, an active volcano is about to break forth near the town of Tamazula, in a rich mining district of the State of Durango. For more than two weeks terrific subterraneous noises have been heard, accompanied by severe seismic disturbances. In many places the ground has risen to considerable height, forming cone-shaped hills, with miniature craters, from which smoke is being constantly emitted. Many houses in Tamazula have been destroyed. The district is being rapidly depopulated, more than 200 families having fled to places of safety. A government commission will be sent to the scene of the disturbance.

Death of Lieutenant Boyneburg.

Vienna, June 2.—Baron Boyneburg, a lieutenant in the guards, who saved the Austrian legation in China during the boxer siege by a sortie outside the walls of the legation single handed and sett fire to the trocha which the boxers had erected outside the walls, died suddenly today. At the time of his daring feat the baron was shot through the forehead. The bullet lodged in his brain and was never extracted. The baron apparently recovered from the effects of the wound and had enjoyed excellent health until yesterday. He was found dead in bed. The bullet had slipped farther into the brain and reached a vital point.

Vallego, Cala., June 2.—Authorities at the Mare Island navy yard received from Washington telegraphic instructions to permit the Russian transport Lena, now interned at the navy yard, to proceed to Asiatic waters. Kelly, of 738 Maple street, Scranton, Pa., was found pinned under a pile of lumber.

Sent on to Grand Jury.

Dr. J. Rills Daniel was examined before United States Commissioner Joseph P. Brady in Richmond yesterday on the charge of using the mails for immoral purposes.

His counsel held that the charges had been obtained by a postoffice inspector in an illegal and improper way and told how the inspector had sent stamps to Dr. Daniel to obtain information, thus soliciting the commission of a crime.

Commissioner Brady held that a detective might take extraordinary means to ascertain whether the mails were being used for immoral purposes, and concluded that the court was the proper place to decide such points of law. He sent the case on the grand jury.

Dr. Daniel renewed his bail in the sum of $1,000. Dr. Daniel has never been a member of the Medical Association in Richmond.

A storm in King George county on Wednsday played havoc with lately plowed fields and growing crops. In some instances fields was washed bare.

Deed of Trust Recorded.

The Norfolk and Washington Steamboat Company yesterday placed on record, in Washington, a deed of trust to the American Security and Trust Company to secure the payment of an issue of bonds aggregating $300,000. Of the issue, 150 bonds are for $1,000 each, 200 for $500 each, and 500 for $100 each, all payable June 1, 1925, with 5 per cent interest, payable semi-annually. The trust contains a provision allowing the company to redeem the bonds in five years, and gives to the holders the option of converting the bonds into stock of the company at the rate of $300 in bonds to $100 in stock. As security for the payment of the bonds, the company transferred to the trust company its property, real and personal, in the District, and in the cities of Alexandria, Norfolk, and Portsmouth. The steamboats Norfolk, Washington, and Newport News are also included in the schedule of property transferred.

Want Improvements in the County.

A petition has been prepared for presentation to Secretary Taft, signed by property owners in Alexandria county, calling his attention to the large amount of property the United States government owns in Alexandria county and to the further fact that the government contributes nothing for policing the county, for maintaining the highways or public schools as it does in the District of Columbia. The United States has title to and occupies one-fifteenth of the land of the county, the petition declares. In view of the above conditions the petitioners ask "that the department will construct or permit to be constructed in the public highway, in connection with the water main one watering trough for horses, one hydrant or drinking fountain, six fire plugs, provided with three nozzles each, suitable for District of Columbia fire engines."

Charters.

The Corporation Commission has granted the following charters:

Virginia Pure Food Company (Inc.), Kinsale; Robert Nimmo, jr., president; George P. Bailey, secretary and treasurer; Frank M. Throft, vice-president; Kinsale. Capital, $20,000. Objects, to engage in the canning and manufacturing of all kinds of food supplies, such as soups baked beans, catsup, Chili sauce, plum puddings, pickles of all kinds, or any other food products.

Nomini Packing and Manufacturing Company (Inc.), George P. Bailey, president; William Hutt, secretary; J. L. Healy, treasurer; Mt. Holly, Capital stock, $30,000. Objects, to engage and conduct a general mercantile business, to can fruits and vegetables and pickle the same.

Effects of the Change.

The change in policemen's beats and the positive orders they received yesterday have already produced satisfactory fruit, and people living in certain sections of the city who have heretofore patiently suffered annoyances from disorderly gatherings found their neighborhoods quiet. The policemen deserve (and they are receiving) the thanks of all. The chief and lieutenant of the police force say they are determined to bring about a new regime even should it become necessary to fill the station house with offenders.

City Coal.

The contract for supplying coal for the gas works and the electric light works for one year commencing today was awarded to Mr. J. R. Zimmerman for coal for gas works, approximately thirty-eight hundred tons and to W. A. Smoot & Co. for coal for the electric light works approximately five hundred and twenty-five or fifty tons. The bids varied by only a few cents, and are only a few cents less in cost than last year when gas coal cost $3.12 and Cumberland coal for electric light works cost $3.18 per ton.

Wedding.

Miss Fleda Allison and Mr. James A. Hulfish, both of this city, were married at noon Wednesday at the home of Mrs Thomas Wilson, an aunt of the bride, in Roanoke. The ceremony was witnessed by only immediate relatives. After a wedding luncheon had been served, Mr. and Mrs. Hulfish left for the north to spend their honeymoon. They will make their home in Alexandria, where the groom is identified with the wholesale firm of Charles King & Son.

Carnival Week.

Carnival week will be inaugurated next Monday on the old fair grounds at the head of King street. The entertainments will be given under the auspices of the Alexandria Light Infantry, and a large attendance is expected. The company which is to appear have visited various points in the southern country recently, and wherever it has appeared it has been liberally patronized. The exhibitions are said to be interesting and instructive.

Malachi Thomas, colored, who was serving a term in jail, was yesterday turned over to the Washington authorities. He is wanted in that city on the charge of stealing a watch valued at $80. Thomas was before the Police Court on Wednesday charged with escaping from the chain gang, and had had 60 days added to his original sentence.

Excursion.

Fitzgerald Council, Knights of Columbus, is making arrangements for an excursion to River View next Tuesday, the committee in charge of the affair is leaving nothing undone that could add to the pleasure of those who may avail themselves of the opportunity of spending a day at that popular resort.

Death of Mrs. Underwood.

Mrs. Martha Underwood, wife of Mr Andrew Underwood, died at her home on Wolfe street, near Fairfax, last night. The deceased was paralyzed a few days ago. Mrs. Underwood was a native of Westmoreland county, but had lived in Alexandria during the past half a century.

School Board.

At the monthly meeting of the City School Beard held last night all the members and the Superintendent were present, and the chairman, Capt. Bryant, presided.

The Superintendent reported that he had visited all the schools during the month and found them to be in successfull operation, though there was some falling off in attendance; one of the teachers had been absent two days but the school had been kept open by a substitute. On Memorial Day, the 24th, and Decoration Day, the 30th, ult., the schools had held but one session; he also stated that he had examined the sewing work exhibit in the colored girl's school, which was very creditable, and was being done without interference with the studies of the pupils and which he thought would be of great benefit to them.

A communication from the Principal of Lee School asking that her school be supplied with new furniture, was received and referred to the committee on schoolhouses and furniture with the request that a report be made at the next meeting as to the condition of the old and the cost of new furniture for that room.

The Superintendent stated that with the approval of the board he would close the white schools on the 29th and 30th, or possibly both on the 30th inst; the colored schools had asked to have a joint closing on the night of the 30th inst., and their request had been granted by him. The plans of the Superintendent were concurred in.

A paper setting forth the services performed by the Principal of Washington School and providing for an appropriation of $62.50 to make his salary the same as he has heretofore received, was laid on the table by a vote of yeas 7, nays 4.

The Clerk laid before the board an anonymous communication received by the Superintendent, threatening that officer and reflecting upon the Clerk and the matter was referred to a special committee to endeavor to ascertain the author of the letter.

Personal.

Miss Louise Mealey, of Monticello, Minn.; Miss Marie Brunson, of Charleston, S. C., and Miss Bess White, of Romney, W. Va., are the guests of Miss Marian Lindsey.

The many friends of Mr. Wapelo Summers, formerly of this city, but who has for many years lived in Barnesville, Ga., will regret to learn that he has been stricken with paralysis. Mr. Summers was a member of Company H, Seventeenth Virginia regiment, during the war.

A letter was received in this city today frem Capt. J. V. Davis, formerly superintendent of the National Cemetery at this place, but now stationed at Antietam. Among other things the writer says he misses his many friends and acquaintances in Alexandria, and sends his regards to all, and expresses the wish that he may at some time get closer to his old friends in this city.

U. S. Marshal Treat has reappointed all his old officers, including Mr. Joseph F. Glover as deputy for this city.

Meeting in the County.

The Del Ray schoolhouse, in Alexandria county, last night was the scene of a meeting held under the auspices of the Jefferson Democratic Club recently organized in the interest of the candidacy of Governor Montague for Senator and Lieutenant Governor Willard for Governor. Mr. Edmund Clark, the president of the club, called the meeting to order and introduced the speakers, former Mayor George L. Simpson, of this city; Commonwealth's Attorney Crandall Mackey, of the county, and Mr. R. C. L. Moncure. Mr. Clark's introductory address was brief.

The speeches of Messrs. Simpson, Mackey, and Moncure were well received, and the orators were frequently applauded. Leiutenant Governor Willard who it had been announced would be present and speak was unable to attend the meeting.

Police Court.

[Justice H. B. Caton presiding.]

Alexander Jones, colored, arrested by Officer Allen as a suspicious character, was dismissed.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I than God for so valuable a medicine." For sale by Gibson & Timberman and W. F. Boys and Baths.

It is a fact well within common knowledge that boys, when worthy of the name, have an instinctive aversion, unconquerable by anything less unreasonable than force, to baths and even to thorough washing of their hands and faces. They consider these rites unnecessary and uncomfortable, resent them as grotesque waste of boyhood's precious time and avoid the performance of them as often and as long as they can. This peculiarity is easily enough explicable on the theory that the child passes through the developmental stages of his race and while in the savage or barbarian stage has the aptitudes and repugnances of savages and barbarians. But quite as much as the boy hates baths he loves to go in swimming, which by the oldsters is also called bathing. That cracks the theory all to pieces and leaves the mystery right where it was before. Nobody has marked the hour when bathing for the civilized human ceases to be torture and becomes pleasure, but certainly it is well beyond boyhood.—New York Times.

Facing the Camera.

When the wise ones go to be photographed they resign themselves wholly to the photographer, who pays as much attention to every detail of pose as would a famous portrait painter. At rare intervals women send some picture—sometimes it is an illustration from book or magazine—that they have taken a fancy to ahead of them as a suggestion; but, as a rule, they express few definite desires as to their poses. The photographer studies his subjects from every point of view, accentuates their good points by many interesting devices, eliminates their less favorable aspects by others equally so—in short, devotes himself to them for the time being as if the entire universe revolved only for the benefit of the anticipated result. Women often pose as long as two hours, during which time they have frequently been photographed in as many as twenty-five different attitudes.—New York Tribune.

Bothering a Duellist.

Brantome, a French author, in "Dueling Stories of the Sixteenth Century," tells of the code then in vogue. It was allowed in the challenge to stipulate as many different weapons as one pleased without specifying the particular ones with which one would actually fight. The antagonist was bound to provide himself with all. One duelist insisted "on the provision of no less than thirty different kinds of armament, for foot and horseback; nay, he even specified the kind of horse—coursers, blood horses from Spain and Turkey, thoroughbreds, cobs, some in harness with ears and tail clipped, some saddled in jennet style, some with heavy plated armor and so one. The object was not only to take his adversary by surprise, but to put him to enormous expense and exhaust his resources."

The Horse Teaches the Man.

While there is no royal road to learning the game of polo in its entirety, there is a plebeian way that leads straight to its secrets. Let the novice get on an old broken down polo pony that knows the game all the way through from a lifetime of playing. Then the pony will play the game for him and will be his teacher. The learner will start in with a few strokes of his mallet till his seat and guidance are assured and later his aim and strength of stroke, and gradually he will work into regular play. Then, like other faithful teachers, the wise old horse will be superseded, but his work will live.—Country Life In America.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspesia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properities to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick.

It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of Throat and Lungs. At E. S. Leadbeater & Sons, druggists; price 50c and $1.00, guaranteed. Trial bottle free.

The Children's Favorite.

For Coughs, Croup, Whooping Cough, etc., One Minute Cough Cure Cure is the children's favorite. This is because it contains no opiate is perfectly harmless, tastes good and cures. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick street.

Found a Cure for Dyspepsia.

Mrs. S. Lindsay, of Fort William, Ontario, Canada, who was suffering quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by Gibson & Timberman and W. F. Creighton & Co.
